

## Bluetooth CF Card Adapter

### AiroBlue CF Card Adapter

The **AIROBLUE CF Card** brings wireless functionality to laptops and portable WinCE devices and is designed to use with your Personal Area Network (PAN). The user-friendly Bluetooth Wireless Solution allows simple wireless access to the Internet, file transfer, printing, synchronization with your contact database, and a host of other applications. Designed to comply with the Bluetooth v1.1 Standards, the AIROBLUE CF Card enables the PDAs & Laptops with Bluetooth Wireless connectivity without the need for wires. The user-friendly Bluetooth application software supports a wide range of Bluetooth Profiles. When used with other Bluetooth devices, such as mobile phone, or PDA, this unique Bluetooth CF Card provides the best solutions for exchanging or synchronizing personal information management data.

#### FEATURES & BENEFITS

- **Cross-platform Communications** : Cross-platform Communications approved by Bluetooth Qualification Body (BOB) for H/W, Firmware and User Profiles ensures full interoperability with other Bluetooth devices.
- **Wireless Internet Access** : Supports instant Internet access using TCP/IP and PPP through dial-up network or LAN Access Point.
- **Local Area Network** : Supports LAN Access Profile using PPP over RFCOMM for file and printer sharing between LAN Access Point and one or multiple Bluetooth devices.
- **Automatic Personal Information Management (PIM)**
- **Data Synchronization** : Supports Synchronization Profile. No physical wire or user intervention is required when updating contact information and schedules among Bluetooth devices within the range.
- **Bluetooth Network Explorer** : Unique Bluetooth Neighborhood and Monitor application supports Service Discovery Application profile and File Transfer Profile providing at-a-glance view of Bluetooth neighborhood, drag-and-drop file transfer, and the easiest way to configure and monitor the Bluetooth devices.
- **Trouble-free Installation and Configuration** : Provides user-friendly wizard to guide you through the installation and configuration in a snap

#### SPECIFICATIONS

- **Standard:** Bluetooth v1.1 & **Chipset:** CSR Bluecore 02
- **I/O Interface:** CF Card Type I, or CF Card Type I with PCMCIA Adapter Type I
- **Radio Output:** Class 1 & **Range:** > 100 Meters (open space)
- **Modulation:** GFSK & **Spread Spectrum:** FHSS
- **Frequency Band:** 2.4 ~ 2.4835GHz ISM Band
- **OS Support:** Pocket PC/Pocket PC 2002/Win'CE 3.0/Win'98/Win'SE/Win'ME/Win'2000/Win'XP
- **LED Indication:** Power/Active & **Antenna:** Integrated & **Sensitivity:** Better than 0.1% BER at -80dBm
- **Regulation:** FCC Part 15, CE
- **Power Supply:** DC 3.3V (via CF Port) & **Power Consumption:** Transmit 80mA
- **Operating Temperature:** 0-50 Degree Celsius
- **Support Bluetooth Function:** File Transfer, Network Access, Dial Up, Fax, Headset, Audio Gateway, PIM Item Transfer
