Low Costs Per CD - the Copytrax INFINITY Ink System

The DaVinci Multi uses Copytrax's INFINITY bulk ink system. Four separate CMYK tanks provide a 2500 disc capacity reservoir, each can be independently refilled, easily and quickly, ensuring that the operator only uses the ink needed and giving unprecedented low running costs.

In addition to the advantages of the Infinity ink system, the DaVinci connects to the **Mac/PC** using USB, therefore enabling multiple machines to be connected to a single Mac/PC.

Speed and Reliability

The DaVinci range of machines have gained a reputation for their speed and reliability. You will be able to print over 100 CD's per hour and over 200 business cards per hour - and be sure of a consistent quality of print.

The DaVinci is built using metal parts and has been designed for industrial use. Many of our customers run a number of DaVinci's in parallel, enabling them to handle high volume orders. Copytrax has also gained a reputation for its high level of customer support and product backup, so you can be sure that every machine delivers on its promise.

Expertise you can rely on...

At Copytrax, we work with printers and duplicators around the world, helping them provide a high quality service that keeps customers coming back.
